Product Specification

- Capacity: 50m3
- Tank Type: Horizontal
- Tank Shape: Cuboid
- Tank Diameter: 2700mm
- Color: Customized
- Pump: Self-priming Pump
- Flow Rate: 50m3/h
- Tank Accessories: Manhole Cover, Emergency Valve, Level Gauge, Discharge Valve
- Highlight: 50m3 Container Refueling Station,
Cuboid Portable Gas Filling Station,
50m3 Portable Gas Filling Station

Product Description

50m3 Cuboid Container Fuel Station With Horizontal Tank Self priming Pump Customized Color

Product Description:

The Container Fuel Station comes with a self-priming pump that allows for easy and efficient fueling. The pump is designed to handle a variety of fuel types, including gasoline, diesel, and kerosene. Its high flow rate ensures fast and reliable fueling, making it a great choice for busy fueling locations.

The tank of the Container Fuel Station has a diameter of 2700mm and a capacity of 50m3, providing ample storage space for your fuel needs. The tank is made of durable carbon steel, ensuring long-lasting use and resistance to corrosion. Additionally, the tank's surface treatment includes sandblasting and painting, providing added protection against the elements and wear and tear.

The Container Fuel Station is a versatile and reliable choice for a variety of fueling applications, including construction sites, mining operations, and agricultural facilities. Its mobility and ease of installation make it an ideal choice for temporary fueling needs. Additionally, its self-priming pump and high flow rate ensure efficient and reliable fueling, making it a great choice for busy fueling locations.

So, if you're in need of a mobile oil supply station or a container gas station, look no further than the Container Fuel Station. Its durable construction, reliable pump, and ample storage make it the perfect choice for all your fueling needs.

Features:

Product Name: Container Fuel Station
